## PROFESSIONAL EXPERIENCE

### DevPoint Labs

#### ***Ruby on Rails Programmer/Web Developer***

DevPoint Labs is a 3-month intensive course where students are trained and mentored by industry experts specializing in a variety of unique facets. With a goal to create the most holistic web-developer and programmer possible, DevPoint is centered around a heavy Ruby on Rails curriculum with advancements into a knowledge base of many advanced, new-age frameworks and markup languages.

#### Notable Projects:

**WatchDogs:** Web application connecting Veterans suffering from PTSD with dogs in local animal shelters

**Feed:** 1<sup>st</sup> place winner of DevPoint Hackathon competition. Eases the hassle of food ingredient input

**My website:** Check it out to find more information about me. <https://github.com/pmarshall17>

**Echo:** Homebuilt Amazon Echo utilizing Alexa's open-source software, a Raspberry Pi and spare parts

**Iron Masses:** Focuses on triathletes comprising all local cycling competitions, marathons, and swims
